ACCEPTANCE FOR INTERNSHIP

Dear Aniket Subhash Shintre,

We are thrilled to formally offer you the **Software Development Intern position** at **Inquisitech Solutions**! We were highly impressed with your academics, soft skills and personal interest areas and believe you will be a valuable asset to our team.

During your three-month internship, starting on **8th-Jan-2024** and ending on **8th April-2024**, you will be an integral part of our dynamic software development team. You will have the exciting opportunity to:

- Contribute to the development of real-world software applications: You will work alongside experienced developers on various projects, gaining hands-on experience in the entire software development lifecycle, from requirement gathering and design to coding, testing, and deployment.
- Gain expertise in core technologies: You will delve into our tech stack, mastering essential software development languages, frameworks, and tools **like GIT, SCRUM, .Net Framework, C#, SQL Server, Javascript, XML, CSS, Web Technologies, DevOps(CI/CD)**.
- Collaborate with talented professionals: You will work closely with our team of passionate developers, learning from their expertise and fostering valuable professional relationships.
- Gain exposure to industry best practices: You will be immersed in our agile development environment, experiencing agile methodologies and adopting industry-standard practices.

- Attend workshops and training sessions: We are committed to your professional growth and will provide you with opportunities to attend internal workshops and training sessions to enhance your skillset.

Responsibilities:

- Assist with the development, testing, and debugging of software applications.
- Participate in code reviews and contribute to improving code quality.
- Write efficient and clean code according to established coding standards.
- Perform unit testing and implement automated testing procedures.
- Collaborate with designers and product managers to understand requirements and specifications.
- Document code and technical processes for future reference.

We are confident that this internship will provide you with a valuable and enriching experience in the software development field. You will gain practical skills, build your professional network, and get a head start on your career in tech.

We look forward to welcoming you to **Inquisitech Solutions** and embarking on this exciting journey together!

Sincerely,

Technical Consultant
